1920

Calendar

1920

Summer Term (Six Weeks)

June 28th to August 6th

1920-21

First Semester (Twenty Weeks)

September 7th—*Tuesday*. Enrollment and Classification of Students.

September 8th—*Wednesday*. All class exercises begin. Training School opens.

October 29th—*Friday*. Anniversary of Normal Literary Society.

December 11th—*Saturday*. Senior Play.

December 22d—*Wednesday*. Christmas Vacation begins, 12:00 M.

January 2d, 1921. Christmas Vacation ends. Study hour, 7:00 P. M.

January 26th, 27th, and 28th. Mid-year Examinations.

Second Semester (Twenty Weeks)

January 31—*Monday*. All class exercises begin.

February 12—*Saturday*. Junior Evening.

March 23—*Wednesday*. Easter Vacation begins. 12:00 M.

April 4—*Monday*. Easter Vacation ends. Study hour, 7:00 P. M.

May 20—*Friday*. Anniversary of Page Literary Society.

June 17—*Friday*. Training School exercises.

June 19—*Sunday*. Baccalaureate Sermon.

June 21—*Tuesday*. Class Day Exercises. 1:30 P. M.

June 22—*Wednesday*. Commencement Exercises, 9:00 A. M.

Meeting of Alumni Association, 2:00 P. M.

Alumni Banquet, 5:30 P. M.

Summer Term (Six Weeks)

June 27th to August 5th

BOARD OF TRUSTEES**To July, 1920**

HON. JOHN G. HOMSHER	Strasburg, Pa.
MR. JONAS B. MARTIN	Lancaster, Pa.
MR. C. ELMER SMITH*	York, Pa.

To July, 1921

DR. DANIEL FLEISHER	Lancaster, Pa.
HON. JOHN H. LANDIS	Millersville, Pa.
SUPT. JOHN W. SNOKE	Lebanon, Pa.

To July, 1922

HON. M. R. HOFFMAN	Maytown, Pa.
HON. CHARLES I. LANDIS	Lancaster, Pa.
H. EDGAR SHERTS, Esq.	Millersville, Pa.

*Resigned.

OFFICERS OF THE BOARD

President—HON. CHARLES I. LANDIS.
Vice President—HON. JOHN H. LANDIS
Secretary—H. EDGAR SHERTS, Esq.
Treasurer—H. C. SYMONS

Standing Committees of the Board**1920**

Instruction and Discipline—DANIEL FLEISHER, Chairman; JOHN W. SNOKE;
 JOHN H. LANDIS.
Household—H. EDGAR SHERTS, Chairman; M. R. HOFFMAN; JOHN G. HOMSHER.
Finance—JOHN H. LANDIS, Chairman; JONAS B. MARTIN.

Assistant in Drawing

History and Description

MILLERSVILLE STATE NORMAL SCHOOL, the oldest normal school in Pennsylvania, was recognized as a State Normal School, December 2, 1859. This recognition was in accordance with the Normal School Law of 1857. However, five years before this, Millersville Normal as an institution of learning and professional training, had its origin when the "citizens of Millersville and its vicinity . . . erected a building for the purpose of establishing a school, which they proposed to denominate the Millersville Academy." The years between this beginning and the recognition of the school as a State Normal were years of success and progress. In many respects this "First State Normal School in Pennsylvania" became the model of all the others in the State as well as many Normal Schools in states lying west of Pennsylvania. From 1857 to 1917 the business affairs of the School were managed by a Board of Trustees elected by the stockholders and appointed by the State Superintendent of Public Instruction. Since February 24, 1917, the Millersville State Normal School has been owned by the State and managed by a Board of Trustees consisting of nine men appointed by the State Board of Education.

Millersville is a pleasant village, situated four miles southwest of Lancaster city, in the richest agricultural county in the United States. It is also a most beautiful and healthful place for a school. By trolley car, Millersville is just a half-hour's ride from Lancaster, cars leaving Center Square, Lancaster, on the hour and half-hour for Millersville. These cars are easily reached from the Pennsylvania and Reading Railway stations.

The location of the Millersville Normal School is especially favorable to moral culture. It is near enough to Lancaster to enjoy the benefits of a city, and yet not so near as to expose students to the numerous temptations common to cities. There are six churches of different denominations in the village, where students may attend. Millersville is a village of homes. Many families come to live in the village while their children are attending the Normal School.

Buildings and Grounds

Main Buildings

THE main Normal School buildings are large, including the Administration Building, the Ladies' Building, and the Gentlemen's Building. The east front of the main building is about 300 feet long,

the south front about 210 feet, and the north front 150 feet. Several upright water pipes that are connected with the standpipe are placed throughout these buildings, with hose attachments that will extend to all parts of the halls and rooms on every floor, and the utmost precautions are taken to prevent accidents by fire. There are eight stairways in different parts of the three main buildings, fire extinguishers are within easy reach, fire escapes and ladders are provided, and a special watchman is on constant duty at night. A large chemical fire engine is kept fully charged, in a convenient room, and the working-men connected with the School have been carefully instructed with regard to its use.

The Ladies' Building is a very large, handsome structure, in the old colonial style of architecture. It has accommodations for about 350 students.

The Gentlemen's Building, which is similar to the Ladies' Building in style, has accommodations for about 250 students.

A large Administration Building is between the Ladies' and Gentlemen's Buildings, completely separating them. The central building contains the spacious chapel, recitation rooms, offices, book room, trustees' room, dining-room, etc.

Gymnasium

A large gymnasium, fully equipped with the best modern apparatus for a complete course of physical training for ladies and gentlemen, is located north of the new annex to the ladies' building. It is in charge of a lady and a gentleman specially fitted for their work. All students have the opportunity of availing themselves of the great advantage of pursuing a course of physical training without extra cost. The work done in the gymnasium has proved of great benefit to students.

Library

A building, with frontage of 107 feet and a depth of 109 feet, erected for library purposes, occupies a prominent position northeast of the ladies' building. It is a very handsome building and contains the general library of the school, the reading room and reference library, the libraries of the literary societies, etc., in all about 20,000 volumes. It is under the charge of a trained librarian and several assistants. It is open from 8 A. M. to 5:20 P. M. The reference library is supplied with many of the latest and best encyclopedias and books of reference, including the latest works upon the subjects taught in the various departments of the School. The reading room is supplied with a large number of the leading magazines and reviews, daily and weekly newspapers, religious periodicals, educational journals, etc. These excep-

tional library advantages are afforded to all students without extra charge.

Science Hall

A building devoted to the sciences and arts is located on the north campus. The front of the building is 120 feet in length, the east wing 80 feet, and the west wing 56 feet. It contains classrooms for instruction in Physics, Botany, Zoology, Chemistry, Commercial Branches, Drawing, Manual Training, Home Economics, Industrial Arts; also physical, chemical, and biological laboratories. On the second floor of the north wing there is a museum which contains a number of valuable collections.

Training School

A building, 123 feet by 61 feet, used exclusively as a Training School was completed in July, 1901, and first used in the fall of that year. This building was especially planned for this purpose, and is in all respects a most commodious and most convenient Training School building. It is located east of the turnpike, opposite the administration building. It contains 20 recitation rooms, besides a large assembly hall, general office, library, two rooms for exercising, manual training room, chemical laboratory, room for kindergarten, etc.

In every respect this is an excellent modern school building.

Infirmary

A comfortable, two-story building, with steam heat, bath rooms, hot and cold water, cemented basement, with cooking equipment and laundry appliances, proper sewerage connections, etc., has been fitted up, following the suggestions of the county medical inspector and representative of the State Board of Health in Lancaster County. It is a double building, the two sides being entirely separate, one part for ladies, and one for gentlemen. It is properly isolated and conveniently located.

For minor cases that do not require house isolation rooms have been fitted up on the fourth floor of the ladies' building as well as of the gentlemen's building.

A *Practical Nurse* is in the building to respond to all calls and the services of physicians, both general practitioners and specialists, can always be secured. Lancaster has two fine hospitals should such service be needed.

Grounds

The buildings are surrounded with grounds to the extent of about twenty acres, part of which is covered with forest trees, shrubbery, and

flower beds and part is carefully laid out and used for tennis, baseball, football, and other outdoor games. A soldiers' monument, erected soon after the Civil War by the students, stands on the campus in front of the administration building, and two beautiful fountains adorn the ground in front of the ladies' building. A beautiful lake for skating and boating and containing myriads of gold fish forms part of the plan. The ground has been graded, walks have been laid out, and hundreds of trees and shrubs have been planted, which enhance the beauty of the place.

A never-failing supply of remarkably good water is found on the grounds. It flows upwards, like an artesian well, through the rocks, which form the bottom of a large reservoir, from which it is pumped into a standpipe eighty feet high, with a capacity of 50,000 gallons, and thence distributed throughout all the buildings and different parts of the campus.

Scholarships, Prizes, etc.

Alumni Loan Fund

The Alumni and other friends of the School have established a fund, which is lent to deserving students without interest to enable them to complete their course. The fund amounts to nearly \$1,500, and its benefits have of necessity been confined to members of the Senior class. Contributions to the fund will be thankfully received. Address H. C. Symons, Millersville, Pa., treasurer of the fund.

Scholarships

A free scholarship has been established by the students of the School during the administration of Prof. James P. Wickersham as principal. It is designed to honor the memory of this distinguished educator, and is entitled the Wickersham Memorial Scholarship. It is awarded at the close of each school year by the faculty and State Board of Examiners to a student who has completed the "Final" examination for entrance to the Senior class and who is entitled to the benefit of State Aid. It includes boarding and the use of text-books, rent free, for the Senior year. The basis of selection is scholarship and moral character.

The sum of \$1,000 has been subscribed by the Class of 1898, the interest of which is used annually in assisting to pay the expenses of a meritorious student. This scholarship is awarded at the close of each school year to the student who ranks second in his work preparatory for entrance to the Senior class and is payable after graduation.

Prize for Excellence in Mathematics

The Class of '66 has invested, in perpetuity, the sum of \$500, the income of which shall be awarded to two students (one lady and one gentleman) who excel in mathematics. This prize is awarded to members of the Senior class at the end of the school year.

For Debating and Public Speaking

Faculty prize. A silk banner with names of the members of the winning Society team on it is presented by the faculty. Open to all students.

Class of '95 prize, for oratory. The interest of \$100. Open to members of the Freshman, Sophomore, and Junior classes.

Regulations for Students

1. Rooms may be engaged by writing to the Principal. All students are required to room in the school building or in private houses designated by the School. No one is permitted to room or board out of the school building until all the rooms are occupied, except for special reasons, and by previous permission of the Principal.

2. Rooms are supplied with furniture, rugs, and bed-clothing, *except blankets, which students are requested to bring with them*, and will be ready for occupancy on the first Tuesday of the session. Rooms should be vacated not later than the day following the close of school. All keys must be returned to the book-room at the close of the second semester. *After the breakfast following the closing day before vacation, those who remain will be charged regular vacation rates.*

3. Rooms engaged and not occupied by the first evening of the term may be forfeited. Rooms will be assigned to new students in the order of their application and entrance as far as practicable. *To have a room reserved the enrollment fee (\$5.00) must be paid when reservation is made. In case a student cannot come to school, this fee will be refunded if the Principal is notified not later than the Saturday before the opening of the term for which the room is reserved.*

4. Students will furnish their own blankets, towels, soap, and napkins and must have all articles of clothing plainly marked with indelible ink with the full name. Each student is entitled to have fifteen pieces washed a week without extra charge. He will be charged for additional pieces. Electric light is furnished by the school, and other lights are not permitted.

5. Students must have their rooms in good order and ready for inspection by 9 A. M.

6. A student's first duty is to report at the public office for enrollment. Here his program is arranged. After this all classes must be entered promptly. Every student shall be present at the daily opening exercises of the school, and at all general exercises in the chapel, unless excused.

7. *Inasmuch as frequent absence from school for any reason hinders the progress of study, permission to leave school will not be granted without good reason for such absence.* Week-end visits are not permitted unless the parent writes to the School requesting such permission and a written invitation is sent to the School by the parent in whose family the student desires to visit.

8. Unless properly excused, students are required to take regular exercise in the gymnasium under a trained instructor. For this purpose they are expected to provide themselves with suitable clothing, including shoes. Ladies should bring a proper gymnasium suit, preferably black serge, consisting of bloomers and waist. Shoes and bloomers may be obtained in the book-room. Rubber soled shoes are not advisable for general gymnastic work.

9. All athletic games and contests and all public exercises are under the general control of committees of the faculty. No student can take part in any public game or contest unless he is a *bona fide* student whose conduct and standing in class are satisfactory.

10. It is expected that the ladies and gentlemen of the School will treat one another with politeness, and in accordance with the usages of good society.

11. Ladies will not be permitted to have gentlemen, not relatives, visit them except by permission from the Preceptress.

12. Except for special reasons, no visiting will be permitted on Sunday or in the evening. Permission to receive visitors shall be obtained before the visitors come to the school. Prolonged visits always interfere seriously with the progress of a student in his studies, and should not be made except for urgent reason and by previous arrangements for boarding, etc. Visits to students by any one during the school hours of the day or evening seriously interfere with their work, and should not be made unless necessary. The best time to visit students is Saturday afternoon. Young persons visiting students will be expected to conform to the regulations of the school. Children under twelve years of age will not visit students except by previous permission.

13. *All visitors are charged 35 cents per meal. The same charge is made for a room. Tickets are obtained in the book-room.*

Applications for Teachers

Many school directors and principals of schools ask the School to

recommend good teachers. The School always tries to answer questions frankly and to assist school officers in finding the teachers best suited to their needs. At or near the close of the school year, the greatest service can be rendered.

Moral and Literary Culture

Moral and Religious Training

AMONG the religious privileges of the School are daily devotional exercises, Sunday Bible classes, prayer-meetings and an occasional sermon or religious lecture. Students are required to attend chapel exercises. They will be excused from the Bible classes if they or their parents or guardians have conscientious scruples against attending these. Attendance upon other religious exercises is voluntary.

Literary Societies

Among the attractions of the School are two flourishing Literary Societies, conducted by the students, the "Normal" and the "Page." They hold weekly meetings. They have together about 12,000 well-selected volumes in their libraries. A student may become a member of one of these societies by paying a small initiation fee. *Every student is urged to join one of them.*

Lecture and Entertainment Course

A Lecture and Entertainment Course of very high grade is given under the auspices of the School. For the school year the following excellent numbers are arranged for:

Leiter Light Opera Company—*Musical*.

Margaret Stahl—*Dramatic Reader*.

Orpheus Four—*Male Quartette*.

Davis & Co.—*Magician*.

Herbert Leon Cope—*Humorist*.

Dr. Russell H. Conwell—*Lecture*.

Christian Associations

A flourishing Young Woman's Christian Temperance Union is connected with the School. It includes among its members a large number of students of both sexes, and accomplishes a great good.

A Young Men's Christian Association and a Young Women's Christian Association have been strong organizations in the Normal for many years.

Each body has a large and influential membership.

Study Hall

For the benefit of all day-students a Study Hall is maintained and presided over by some member of the faculty or other responsible person. Room R is devoted to this important purpose.

Study Hall hours—9 A. M. to 12 M. and 1:15 P. M. to 3:15 P. M.

All day students will report in Study Hall for all their regular vacant periods, during the hours the Study Hall is maintained.

Business of the School

THE tuition of all students at the State Normal Schools, who are not less than seventeen years of age, and who sign an agreement to teach in the public schools of this Commonwealth for not less than two years, and who are pursuing regular courses in pedagogy therein, shall be paid by the Commonwealth. (Extract from Section 2020, School Laws of Pennsylvania.)

For all others the tuition is \$2.00 per week.

In case there is a deficit in the State Appropriations for free tuition, students at the several State Normal Schools will receive the same pro rata share of the appropriation. The full amount has been received for many years.

In order to be enrolled as a student in this school, all persons must pay an enrollment fee of \$5, no part of which is returned for any reason. This charge is made once during the regular school year.

Each semester every student will pay an incidental fee of \$2.

The expense to boarding students for the entire year, including fees, board, tuition, room rent, heat, light, and laundry work, is \$369. If a boarding student receives State Aid, the expense is reduced to \$289 for the year.

Day students pay \$109 a year for fees, tuition, school privileges, and use of Study Hall. If a day student receives State Aid, the charge is \$29 per year.

The following table gives a clear and concise statement of the charges for each semester, or part of a semester, exclusive of the above fees:

REGULAR CHARGES

	First Semester 20 Weeks	Second Semester 20 Weeks	Part of Semester Per Week
Boarding Students.....	\$180.00	\$180.00	\$9.50
Boarding Students after deducting State Aid...	140.00	140.00	7.50
Day Students.....	50.00	50.00	2.75
Day Students after deducting State Aid.....	10.00	10.00	.75

CHARGES FOR SPECIAL LESSONS, ETC.

	First Semester 20 Weeks	Second Semester 20 Weeks	Entire Year	Part of Semester Per Week
Instrumental music or voice culture.....				
2 lessons weekly, 2 practice periods daily...	\$35.00	\$35.00	\$70.00	\$ 2.00
1 lesson weekly, 1 practice period daily	17.50	17.50	35.00	1.00
2 lessons weekly, without use of instrument	30.00	30.00	60.00	1.70
1 lesson weekly, without use of instrument	15.00	15.00	30.00	.85
Use of piano, one practice period daily	2.50	2.50	5.00	.25
Use of piano, two practice periods daily ...	5.00	5.00	10.00	.50
Typewriting, one period daily with use of typewriter	10.00	10.00	20.00	.75
Stenography, daily lessons in class	10.00	10.00	20.00	.75
Penmanship (special lessons in class daily) ...	10.00	10.00	20.00	.75
Chemical laboratory, charge for breakage etc.....	2.50	2.50	5.00	.20
Agriculture50	.50	1.00	.05
*Home Economics, laboratory fee.....	.50	.50		.05
Industrial Arts	1.00	1.00		.10
*Manual Training, laboratory fee per course	1.50	1.50		.15
Physics.....	.50	.50		.05
Zoology75	.75	1.50	.10
Dinner, five school days	35.00	35.00	70.00	1.75

* Students will be charged *cost price* of materials used in making models and carrying out lessons.

Tuition in regular classes to special students in Public Speaking, Music, Manual Training, Drawing, Gymnastics, etc.: one class, 75 cents weekly; 2 classes, \$1.40; 3 classes, \$2.00.

Students desiring to occupy single rooms may arrange to do so, when the building is not full, for \$1.00 a week additional charge.

Boarding to students during winter and Easter vacations, and transient boarding, \$8 a week or \$1.50 a day.

Deduction—No deduction is made to students entering within the first two weeks, nor leaving within the last two weeks, of any term, nor for a part of a week.

No difference in the charge for boarding and tuition shall be made in favor of any students pursuing similar studies. (Extract from Section 2019, School Laws of Pennsylvania.)

Boarding students absent from school two full consecutive weeks on account of *personal sickness* are granted a reduction of \$3.50 a week for each full week absent.

Money paid in advance will be refunded provided said student presents to the Treasurer a withdrawal card signed by the Principal.

All students are admitted free to all regular lectures, entertainments, and athletic contests held under the auspices of the school.

Payments

All moneys must be paid to the Treasurer who acts on behalf of the Trustees. *The enrollment fee of \$5 and the incidental fee of \$2 must be paid at the time of enrollment at which time a payment on account of board, tuition, etc., is also to be made.*

The following shows the amounts, exclusive of the above fees, and the dates on which payments should be made by students receiving free tuition:

	Day.	Boarding.
Sept. 7, 1920	\$10.00.....	\$90.00
Nov. 29, 1920		50.00
Jan. 31, 1921	\$10.00.....	90.00
April 25, 1921		50.00

A student's account (including books and stationery) must be settled at the end of each semester. No student will be promoted, granted a withdrawal card, recommended to the State Board for examination or second diploma until all bills have been paid.

Checks, bank drafts, express, and post-office money orders may be used in payment of all bills. They should be drawn payable to Millersville State Normal School.

There are no extra charges except for books and stationery and extra branches named above.

The extra expenses of students are very small, consequently they do not need large sums of spending money. Arrangements are made by which students may deposit money with the Treasurer, and draw it at such times as they desire.

Mail, Telegraph, etc.

The School has three mails daily. Mail matter should be addressed: *Millersville, Lancaster County, Pa.* The words *State Normal School* on the envelope of a letter or package will facilitate its delivery.

Write the name of the post-office, *Millersville*, plainly. Mail matter frequently fails to arrive promptly because it is directed to *Millersburg* or *Millerstown* or *Minersville*, instead of *Millersville*.

All telegrams addressed *State Normal School, Millersville, Pa.*, will be sent to the School by telephone from Lancaster.

Both telegraph companies—the Western Union and the Postal—have printed directions to this effect in their books of instructions to agents.

The School is connected by telephone with nearly all parts of eastern and central Pennsylvania.

Express packages should be prepaid and should be addressed: *Millersville State Normal School, Lancaster, Pa.*

Arrangements for Trunks

Arrangements are made with the Conestoga Traction Company whereby trunks, etc., are brought from baggage rooms at the Pennsylvania and Reading railway stations on the opening day of the first semester. When they come to school on this day, students will hand railroad checks for baggage to the Conestoga Traction Company employee detailed at the station for the purpose of looking after Normal School baggage with payment for transportation.

Those arriving at any other time will hand their baggage checks to the conductor on the Millersville street car with payment for transportation.

The Conestoga Traction Company has agreed upon the following charges:

	On opening day.	On other days.
Trunks	\$0.37	\$0.62
Suit Cases21	.31
Hand Bags21	.31

Report of Committee on Revision of Normal School Course of Study

Adopted March 23, 1920

Requirements for Admission

1. Graduates of approved secondary schools who can present evidence of having completed fifteen units of high school work will be admitted as regular students to the state normal schools.

2. A unit shall consist of not less than thirty-six weeks of work requiring at least four periods per week of not less than forty minutes per period or its time equivalent. (Subjects not requiring out-of-class preparation or study shall require double time in estimating the units.)

3. Credentials of all students entering the state normal schools shall be received and evaluated by the normal schools and submitted to the State Department of Public Instruction for approval.

4. Adequate knowledge of the subject matter in the elementary subjects will be presupposed on the part of all students admitted to the normal schools.

5. Required units for admission:

English, 3 units.

Mathematics, 1 unit.

Science, 1 unit.

Social Studies, 1 unit, after Sept., 1923, 2 units.

Elective, 9 units, after Sept., 1923, 8 units.

6. The holders of permanent and professional certificates will be given one unit credit toward admission as regular students to the normal schools for each subject of high school grade written on the certificate.

7. Advanced credit will be given for equivalent courses in approved teacher training institutions, but no student may obtain a normal school certificate without a minimum residence of one year.

8. For the present the normal schools shall, when necessary, conduct a secondary department of first-class high school grade for those students who do not have similar high school facilities available in their home communities.

Curricula of the Pennsylvania State Normal Schools

Students Must Select One of Four Curricula

The four curricula that are offered to students have been organized upon the principle that teaching in the elementary schools can be classified into sufficiently definite types to require specialization. Each curriculum prepares for a specific type of teaching position.

The two years' work of the normal school is divided into four semesters. The work of the first semester is the same for all students. A large purpose of the work of the first semester is to acquaint students with the requirements for successful teaching in the different grades so that they may be able to decide intelligently in what grade or grades they prefer to teach. The course entitled "Introduction to Teaching" which includes observation and participation in the training school is especially designed to aid students in a wise selection of a curriculum.

At the end of the first semester students are asked to select one of the four curricula for the purpose of specializing in a specific field of teaching. The work of each curriculum must be completed in its entirety. Students may be granted the privilege of changing from one curriculum to another only on condition that the prescribed courses of any curriculum so selected must be completed before a certificate of graduation is granted.

The Four Curricula

Group I. Kindergarten—Primary—for teachers of Kindergarten and grades 1, 2 and 3.

Group II. Intermediate grades—for teachers of grades 4, 5 and 6.

Group III. Grammar Grades and Junior High School—for teachers of grades 7, 8 and 9.

Group IV. Rural—for teachers of rural schools.

Electives

All electives are taught from the professional point of view and are of college grade of work.

All electives are to be chosen with special reference to the group in which the teacher is preparing to teach and with the approval of the principal of the school.

Each normal school is required to offer at least one elective in each of the six groups of electives. Additional electives of similar grade may be offered at the discretion of the principal of the school.

Brief Description of the Courses of Study**The State Course of Study**

The state course of study is used as the basis for the courses in the teaching of the elementary school subjects.

Classification and Numbering of Courses

All courses are classified in seven departments. All courses numbered below 10 are common to all groups. A decimal indicates that two or more courses of the same department occur in the same semester. A single digit or the last of two digits indicates the semester in which the course occurs. The first of two digits indicates the group in which the course occurs.

Education**Education 1—Introduction to Teaching**

All groups, 1st semester. 4 periods, 3 hrs. credit.

The primary purpose of this course is to aid students in selecting a specific curriculum at the end of the first semester, and to imbue them with a strong professional spirit and high standards of professional ethics. It includes consideration of the different types of teaching service, the general aims of the public schools and, more specifically, the work to be accomplished by the primary, intermediate, junior high and rural schools respectively, a brief sketch of the characteristics of children in these different types of schools and the qualifications required of teachers to meet the needs of children at the different age levels in these different types of schools. The broad social aims of each type of school and its relation to the state are emphasized.

The instruction in this course is closely correlated with frequent visits of observation and participation in the training school.

Education 2—Psychology and Child Study

All groups, 2nd semester. 3 periods, 3 hrs. credit.

This is an elementary course in psychology combining the important topics of both general and educational psychology, and forming the basis of the specific

courses in educational theory and practice. The chief topics considered are: (a) instinctive tendencies; (b) habit-formation; (c) memory, association (including localization of functions), and economy of learning; (d) the affective life; (e) the thought processes; (f) the extent and causes of individual differences among children, and the use of intelligence tests in determining them; (g) the treatment of exceptional children. About one-third of the course is given to the study of the characteristics of children at the different levels of growth. One laboratory period each week is given to the observation of children. While this course is practically identical in all curricula, there is differentiation in the observation of children and in the laboratory experiments, each group emphasizing the characteristics of children at the age level of its particular curriculum.

Education 12—Kindergarten Theory

Group I, 2nd semester. 2 periods, 2hrs. credit.

This course deals primarily with kindergarten aims, purposes, technique, and equipment. Special attention is given to modern tendencies in kindergarten practice, and particularly to the relation of the kindergarten to the primary grades. Observation and participation in the training school is a prominent feature of the course.

Education 13—School Efficiency

Group I, 3rd semester. 3 periods, 3 hrs. credit.

This course correlates closely with the student teaching, deriving a large part of its meaning from the teaching experience of the student. The instruction is shaped by the aim and purposes of the kindergarten and grades one, two and three, and includes such topics as: classroom routine, the organization of the daily study and recitation program; hygienic standards for and care of class-rooms; the making and keeping of records; and is followed by the analysis and study of such class-room technique as: the significance of the play spirit in the primary grades; the management of primary grades; the use of seat work; the value of dramatic expression; types of class-room exercises applicable in the primary grades; and the project and problem method as applicable to children of this age; and the practical application of educational tests and scales.

Education 23—School Efficiency

Group II, 3rd semester. 3 periods, 3 hrs. credit.

This course correlates closely with the student teaching, deriving a large part of its meaning from the teaching experience of the student. The instruction is colored and shaped by the purposes and nature of the work in the intermediate grades and includes class-room routine, the daily study and recitation program, hygienic standards for and care of class-rooms, the making and keeping of records, and is followed by the analysis and study of such class-room technique

as: methods of lesson assignments; types of class-room exercises; efficient methods of study; types of questioning; the value and uses of intelligence and educational tests; and the project and problem method as applicable to the fourth, fifth and sixth grades. The problem of discipline in these grades receives attention.

Education 33—School Efficiency

Group III, 3rd semester. 3 periods, 3 hrs. credit.

This course deals with the principles of instruction common to the teaching of all subjects in the seventh, eighth and ninth grades and is closely correlated with student teaching. Consideration will be given to such topics as types of lessons, the recitation, the assignment, the question, the project and problem method, the socialized recitation, lesson plans, supervised and independent study, the use of educational tests and scales, problems in discipline, economy in class-room management. A considerable part of the time of this course is devoted to a discussion of educational guidance problems. The course analyzes the processes and problems of the important types of human occupations, the aptitudes and training required for each, the financial rewards, the hazards, the opportunities and avenues for advancement in each field. As far as possible typical occupations are studied at first hand including occupations of agriculture, manufacture, transportation, exchange, public service, professional service, domestic and personal service, and clerical occupations. The pertinent printed matter in books, pamphlets and magazines is examined and organized.

Education 43—Primary Methods

Group IV, 3rd semester. 3 periods, 3 hrs. credit.

This is a composite course including the best modern primary methods in number, geography, history, and handwork. It is devoted to a consideration of environmental materials in geography and the development of correct geographical concepts; to the aims and purposes of history in the primary grades and the materials available for these grades, with emphasis on the selection of materials for patriotic and other special days; to the best methods of inculcating in children simple health habits; and to the best available means of seat work through paper cutting, weaving, clay modeling, etc.

Education 4—History and Principles of Education

All groups, 4th semester. 4 periods, 4 hrs. credit.

This is an integrating course and aims to bring together and interpret the details of educational theory and practice represented by the preliminary courses, and to leave with the student a unified body of educational doctrine. The course begins with a brief review of the origin and development of present day practices and tendencies in public school education, the large emphasis being placed on these movements that have originated, or at least have come into prominence,

since the time of Rousseau. The discussion of such topics as: the aims and purposes of education; the development of various conceptions of educational values; and the history and present status of such educational movements as: vocational education; the treatment of backward children; scientific measurements; the junior high school; the doctrine of interest; formal discipline; the transfer of learning; project and problem teaching; and the socialized recitation.

Education 44—Rural School Problems

Group IV, 4th semester. 3 periods, 3 hrs. credit.

The aim of this course is similar to that of the course in School Efficiency in Groups I, II and III, and includes in addition the defects of the one-room rural school treated constructively, not destructively; the advantages of consolidation; the organization of the rural school; the daily study and recitation program reducing the number of classes by combining grades, alternating grades, correlation, etc.; vitalizing the course of study; club work; community center work; heating and ventilation; play and recreation; and beautifying the school grounds. The discipline of the rural school is discussed.

Education 3—Student Teaching

All groups, 3rd semester. 10 periods, 10 hrs. credit.

THE TRAINING SCHOOL. The training school is the pivotal point of all the work of the normal school. It functions as a laboratory for every department of the school and articulates with peculiar intimacy with the Department of Education.

OBSERVATION AND PARTICIPATION. Although student teaching is confined to the senior year, junior students are given frequent opportunities for participation in the work of the training school and observation of expert teaching, in the training school is a feature of all the courses in education and of many other courses throughout the curricula. One critic teacher is assigned to each two class-rooms and demonstration lessons are taught from time to time in exemplification of the various phases of good educational practice.

DISTRIBUTION OF TIME. A minimum of two consecutive sixty-minute periods per day for one semester is given to student teaching. Where two student teachers are assigned to the same class in the training school the assignments are so adjusted that each student teacher has a definite problem. The distribution of teaching time is designed to give progressively to the student an increasing class responsibility.

LESSON PLANS. Plan forms are used upon which all lessons taught by student teachers are planned. Critic teachers hold daily conferences with the student teachers under their charge and approve all lesson plans of student teachers before the lessons are taught.

STUDENT TEACHERS. Every student teacher confines his teaching to the grades of the group which he has elected. Student teachers electing group I and group II have practice experience in all the subjects of the curriculum and, if possible, in

all the grades of the group. Student teachers electing group III confine their practice teaching largely to the subjects in which the student has elected to specialize and, if possible, have practice teaching in all the grades of the group. Student teachers electing group IV confine their practice teaching largely to the rural one-room ungraded school and have opportunity for contact with the community problems. All assignments for student teachers contemplate the completion of a unit problem.

TRAINING CLASSES. Training classes aim to have not less than twenty nor more than thirty pupils; that is, enough pupils to set up a normal social situation and yet not so many as to unduly tax the limited skill of the teacher.

THE PUPILS. The pupils in the training school by reason of the careful planning of each lesson and the close supervision of expert teachers, as well as through the use of abundant and elaborate equipment of the normal school, are most favorably situated to secure the best possible education.

ENGLISH AND FOREIGN LANGUAGE

ENGLISH

English 1—English Fundamentals

All groups, 1st semester. 3 periods, 3 hrs. credit.

The purpose of this course is to acquaint the student with the source of material in English and the forms of correct expression.

A definite standard of written and spoken English must be acquired and maintained by all students. Further work in English without extra credit will be required of all who fail to reach and maintain this standard.

A few periods of instruction are given in the method of classifying and cataloging books and in the use of reference books, readers' guides, etc.

About a third of the time of the course is devoted to a thorough review in the basic principles of English grammar and special attention is paid to the structure of sentences and the syntax of their various parts. The course includes a brief history of the language and the principles underlying its development.

About a sixth of the time of the course is devoted to a study of words including pronunciation, diacritical marking based on a generally recognized system of phonetics and attention is paid to basic principles in etymology.

English 1.1, 2.1—English Composition

All groups, 1st and 2nd semesters. 2 periods, 2 hrs. credit each semester.

This course includes a thorough study of the forms of English prose composition together with much practice in writing. The four types of English prose; narration, description, exposition, and argumentation are carefully studied and analyzed with reference to form, content and technique. Special attention is given to the essay and the short story as media of prose expression and students

are required to write frequent themes illustrative of the various prose forms discussed. These are made the subject of class criticism and discussion. The teacher in charge of the class meets the students from time to time for personal consultation.

English 2—Oral Expression

All groups, 2nd semester. 2 periods, 2 hrs. credit.

This course is designed primarily to insure (1) a good teaching voice and (2) effective address with facility and ease in oral expression.

English 13—The Teaching of Primary Reading

Group I, 3rd semester. 3 periods, 3 hrs. credit.

The primary aim of this course is to enable the student to acquire skill in the teaching of reading to beginners including the development of skill in the use of phonics. The course includes a comparison of the principal methods of teaching reading and the historical development of various methods of teaching reading are traced. Consideration is given to the psychological processes involved in reading. The student acquires familiarity with the means of measuring efficiency in reading. This course is accompanied with observations of primary reading classes as well as the actual teaching of reading.

English 23—The Teaching of Oral and Written Composition

Group II, 3rd semester. 2 periods, 2 hrs. credit.

The aim of this course is to ascertain how to secure free self expression from the pupil in oral and written composition. Special stress is placed upon oral composition as speech functions more largely than written composition in life. The prospective teacher is made to realize the necessity of assisting the pupil to form clear percepts and images as a basis for clear expression. The acquisition of a vocabulary by the pupil and his manner of applying it in the expression of his thought is carefully studied. Easy and natural transition from oral to written composition is the end sought in the teaching of composition. The use of standard measurements and tests in oral and written composition is taught in connection with this course.

English 43—The Teaching of Oral and Silent Reading

Group IV, 3rd semester. 3 periods, 3 hrs. credit.

The aim of this course is to enable the student to acquire skill in the teaching of reading to beginners and the handling of the technique of silent reading with older pupils. Attention is given to the development of skill in the use of phonics. Consideration is given to the psychological processes involved in reading. The student acquires familiarity with the means of measuring efficiency in oral and

silent reading. The course includes a comparison of the principal methods of teaching reading and is accompanied with observations of oral and silent reading classes as well as the actual teaching of such classes.

English 14—Children's Literature and Story Telling

Group I, 4th semester. 3 periods, 2 hrs. credit.

This course involves the collection and study of literature in verse and prose suited to children of this age. The selections are studied for the purpose of finding the elements contained therein that are likely to appeal strongly to children. The study of folk tales and fairy stories is included in this course.

The course in story telling covers the principles involved in telling stories to children. It involves also the application of the principles of child psychology and voice training to the telling of stories.

English 24—Juvenile Literature and Silent Reading

Group II, 4th semester. 3 periods, 2 hrs. credit.

This course is planned to give a foundation for teaching literature and silent reading to pupils of the intermediate grades.

It aims to give an adequate knowledge of those literary types that are most suitable for children of this age. Magazines and current literature are studied and selections made from courses as well as from standard authors.

A study is made of the difficulties that children meet in their effort to comprehend thought from the printed page. Students are made familiar with the scientific measurements of silent reading.

English 34—Juvenile Literature and Silent Reading

Group III, 4th semester. 3 periods, 2 hrs. credit.

This course aims to make an intensive study of the literature suitable for pupils of the grammar grades and junior high school.

Emphasis is placed upon the ethical situations developed in the reading of pupils of this age. The course also aims to give students control over the technique of teaching silent reading. Students become familiar with the standard measurements of silent reading.

MATHEMATICS

Mathematics 12—The Teaching of Number

Group I, 2nd semester. 2 periods, 2 hrs. credit.

This course covers intensively the work in arithmetic of the first three grades. Parallel with this, is a careful consideration of the approved methods of developing number concepts, of providing measurements and other forms of

application, of correlating the number work with the work of other subjects, of conducting drill on number "facts," etc. The methods are illustrated by the observation of actual work with children, by demonstration lessons, and by the study and use of simple apparatus and materials, visual aids, etc. A sketch of the historical development of methods of teaching primary arithmetic is a feature of the course.

Mathematics 22—The Teaching of Arithmetic

Group II, 2nd semester. 3 periods, 3 hrs. credit.

This course aims to develop a systematic presentation of the facts and principles of arithmetic with special emphasis upon the topics that are most significant in the work of the intermediate grades. The treatment illustrates at every step the most effective methods of teaching arithmetic. Attention is given to the results of the recent experiments in the psychological processes involved in the teaching of arithmetic and to the measurement of efficiency in this subject by the standard tests and scales. Observation of the teaching of arithmetic in the intermediate grades is an essential part of the course.

Mathematics 32—The Teaching of Mathematics

Group III, 2nd semester. 3 periods, 3 hrs. credit.

This course includes important topics in the teaching of arithmetic in the seventh and eighth grades and in the junior high school. Emphasis is placed upon the commercial and industrial applications of arithmetic, with much practice in the making and solution of problems. Attention is given to the teaching of a course in composite mathematics in the junior high school. The use of standard measurements is given consideration. Observation of the teaching of mathematics in these grades is a requirement of the course.

Mathematics 42—The Teaching of Arithmetic

Group IV, 2nd semester. 3 periods, 3 hrs. credit.

This course aims to present a systematic study of the topics in arithmetic that are found in the course of study of the rural school. A special effort is made to have students understand how to use the resources of the country in supplying opportunities for the application of arithmetic. Attention is given to the psychology of arithmetic and to the standard measurements in this subject. Observation is an essential part of the course.

SCIENCE

Science 1—Nature Study

All groups, 1st semester. 3 periods, 2 hrs. credit.

The word nature study is used in a broad sense to cover all phases of ele-

mentary science adapted to all groups. This course aims to give the student a definite body of knowledge of common forms of environmental materials and to supply the principles that will guide him in selecting and using environmental materials wherever he may be located. The course includes as wide a range of observation as possible of materials which the prospective teacher may be called upon to use in his work. Field trips are supplemented by laboratory study. For teachers of the upper grades a differentiation is made in favor of materials that supply the basis for further scientific study, especially in the field of biology.

Science 12—The Teaching of Geography

Group I, 2nd semester. 1 period, 1 hr. credit.

The emphasis in this course is upon the use of environmental materials for the purpose of developing in the minds of the children correct geographical concepts as to direction, location and geographical forms. Students have practice in choosing materials for study, as well as demonstrations of the materials and methods employed by others. An attempt is made to furnish instruction that will enable the student later to adapt his knowledge to the environment in which he is teaching. A part of the time is devoted to laboratory and field work.

Science 22, 32, 42—The Teaching of Geography

Groups II, III and IV, 2nd semester. 3 periods, 3 hrs. credit.

This is a general course in geography given from the standpoint of man's reaction to his environment and aims to coördinate fundamental principles of geography. The course is developed from the viewpoint of causal relations rather than the mere enumeration of facts and principles. As far as time permits some study is made of regional geography as a type of further application. Students get training in the organization and the presentation of geographic data through the use of the project and problem method; in the preparation and the use of maps, graphs, diagrams, and other illustrative material; and in the problems and methods involved in teaching field geography. Students are made familiar with the use of standard educational measurements in geography. The observation of classes in the teaching of geography is a necessary part of the course. Such differentiation in the application of the above principles and methods is made for the different groups as the course of study in geography requires.

Science 44—Agriculture

Group IV, 4th semester. 3 periods, 3 hrs. credit.

A large purpose of this course is to give to the teachers of rural schools an insight into and a sympathy with the basic industry of the rural population and to appreciate the larger aspects of this industry as related to our national

welfare. The rural teacher is instructed how to relate a knowledge of agriculture to the experiences of rural children with a view to motivating the teaching of the common branches. Opportunity is offered for participation in agricultural projects so that teachers can initiate and supervise projects with their pupils. Through this course teachers come in touch with the leaders of agricultural improvement and learn of the available sources of information on agricultural subjects.

SOCIAL STUDIES

Social Studies 12—The Teaching of History

Group I, 2nd semester. 1 period, 1 hr. credit.

This course begins with the consideration of the aims and purposes of history in the primary grades. The course is devoted mainly to a study and practice in oral presentation and dramatization; and a consideration of the organization of material for special days, festivals, and patriotic exercises. Particular advantage is taken of the results of the work of Dewey in expressing historical movements through industrial arts. This course gives attention to work in civics with a view to having students teach children the fundamental civic virtues and afford a basis of social experience for the interpretation of new social situations as they arise. Emphasis is given to the teaching of significant civic virtues through stories, poems, songs, dramatization and various pupil activities.

Social Studies 22—The Teaching of History

Group II, 2nd semester. 3 periods, 3 hrs. credit.

This course includes a study of such history as will equip students to teach the history of the intermediate grades as recommended by the state course of study. Observation of teaching in these grades is a feature of the course.

Attention is given to teaching civics in the intermediate grades. The course for the fourth and fifth grades centers around the idea of community coöperation emphasizing those who furnish us food, clothing, shelter, medical aid, light, transportation, protection, etc. The work for the sixth grade centers around the idea of industrial coöperation with emphasis upon vocational opportunities, study of community service through occupations, and the qualifications required for each occupation.

Social Studies 32—The Teaching of History

Group III, 2nd semester. 3 periods, 3 hrs. credit.

A course primarily for those specializing in social studies. An intensive course in the teaching of American history with emphasis on the European background. The difference between secondary and primary source material is

shown and the student gets acquainted with available source materials as well as acquires a knowledge of the principle text and reference books. The value and danger of historical parallels is shown as well as the importance of relating the study of history to current events. Students are taught to test historical data and to interpret historical facts.

The teaching of community civics follows bulletin No. 23, 1915, of the United States Bureau of Education. The larger responsibilities of citizenship and of patriotism as revealed by the World War are presented and the student gets acquainted with the many books in these fields available for children as well as the proper reference material for the teacher.

Social Studies 42—The Teaching of History

Group IV, 2nd semester. 3 periods, 3 hrs. credit.

This is a composite course in the teaching of history and civics using as a basis the report of the Committee of Eight of the American Historical Association and bulletin No. 23, 1915, of the United States Bureau of Education entitled "The Teaching of Community Civics". Special emphasis is laid upon the opportunities for citizenship in rural communities and upon the ultimate dependence which all civilization has upon the products of the soil. This course aims to develop resourcefulness in the student in the use of available text and reference books

Social Studies 4—Citizenship

All groups, 4th semester. 2 periods, 2 hrs. credit.

This course aims to define clearly the meaning of democracy and to discuss the fundamental problems in a democratic social system; to point out the community relationships as expressed in family, church, school, industry and state to the development of democracy; to emphasize the responsibilities of the individual citizen in his vocation, in his political activities, in his use of leisure, and in the many aspects of social intercourse to the life of democracy; and to all the phases of democracy to make clear the responsibilities of teachers and of public education.

Social Studies 44—Rural Sociology

Group IV, 4th semester. 2 periods, 2 hrs. credit.

The primary aim of this course is the inculcation in the minds of the students of a love for and just appreciation of the importance of a healthy country life, and includes consideration of such topics as: defects of present day country life, treated constructively; the lack of rural pride and rural coöperation; land tenantry; migration from the country to the city and its causes; coöperative buying and selling; the need for scientific agriculture; the country

home; the country church; good roads; and the country school as an agent in intellectualizing, socializing and spiritualizing country life.

ARTS

Arts 1—Drawing

All groups, 1 semester. 4 periods, 2 hrs. credit.

The aim of this course is to enable students to teach the public school course of study in drawing including the representation of common objects, the elementary principles of design, lettering, composition, and color harmony in their application to dress, home, school, and community interests; to give students facility and confidence in their ability to draw and illustrate on the blackboard a wide range of school subjects; to develop appreciation of art and ability to teach pupils the appreciation of art, including the study of pictures. Such differentiation is made in this course for the different groups as the course of study requires including the teaching of the elements of mechanical drawing for the upper grades.

Arts 1.1—Handwriting

All groups, 1st semester. 2 periods, 1 hr. credit.

At the beginning of this course the handwriting of students is measured by one of the handwriting scales and if they fall below the standard set for teachers they are put in special classes for practice. The time of this course is devoted largely to methods of teaching writing and to developing skill in blackboard writing. Students are instructed in the results of the recent investigations in the psychology of writing. Through measuring their own handwriting and the handwriting of children, students become acquainted with the use of handwriting scales.

Arts 12—Handwork

Group I, 2nd semester. 4 periods, 2 hrs. credit.

This course aims to instruct students in the use of various materials that will enable them to work out simple problems as they arise out of the daily necessities of food, clothing and shelter. Students learn to appreciate the problems that are within the interests of children and how such problems may be graded according to the child's control of technique. The course includes clay modeling, paper and cardboard construction and simple problems in wood and textiles. Students observe demonstrations of this work in the training school and participate in such work.

Arts 23—Sewing

Group II, 3rd semester. 2 periods, 1 hr. credit.

The aim of this course is to enable students to teach simple stitches to

pupils of the fourth, fifth and sixth grades and to handle projects in the making of various articles for personal and household use.

Arts 14—Handwork

Group I, 4th semester. 4 periods, 2 hrs. credit.

This course gives continued attention to the use of handwork as an illustrative factor in the teaching of nature study, geography, history, literature, arithmetic, and the industrial activities of life. Emphasis is given to technique and the organization of such forms of handwork as may be used successfully in the regular class room. The course includes work in paper and cardboard, bookmaking, basketry, textiles, pottery, and wood. Students observe demonstration of this work in the training school and participate in such work.

Arts 4—Music

All groups, 4th semester. 4 periods, 2 hrs. credit.

This course presupposes a knowledge of the elements of music. The purpose of this course is to fit students to teach music in the public schools. The salient features of this course are: a treatment of the child voice, a study of the tonal and rhythmic problems of each grade, ear training, melody writing, sight reading, and part singing, a study of the song material adapted to each grade, the use of the phonograph to develop musical appreciation, and the development of musical programs. Students are taught how to apply the standard musical tests to discover musical talent. Observation and practice teaching are a requirement of the course.

Arts 24—Prevocational Education

Group II, 4th semester. 3 periods, 3 hrs. credit.

The aim of this course is to enable students to develop for the pupils of the fourth, fifth and sixth grades an elementary knowledge of the industries concerned with the fundamental needs of clothing, food and shelter. The construction of a house is the objective of the course. It includes the making of paper furniture, the stenciling of patterns and the weaving of fabrics on small hand looms, simple carpentry work necessary for the erection of a one-story house and its partition into rooms, problems of distribution of size and space, convenience of access, and discussion of the question of lighting, heating, and ventilation, and the industries of carpentry, plastering, plumbing, brick laying, stone masonry, etc. Students are taught to motivate the handwork of this course through their ability to discuss industrial processes, through excursions with their pupils to industrial plants or observation of workmen engaged in industry, together with the description and examination of materials.

HEALTH EDUCATION

Health 1.1—Personal and School Hygiene

All groups, 1st semester. 2 periods, 2 hrs. credit.

PERSONAL HYGIENE. The aim of this course is to secure in the students settled habits in the care of the body which will lead to stronger, healthier and more efficient lives. The course aims to have students understand the hygiene of posture, nutrition, clothing, exercise, fatigue, rest and sleep; the causes of ill health and disease together with their control and prevention. Only those facts of physiology and anatomy which have special significance for hygiene are considered. The instructor will hold personal conferences with students as a part of the course.

SCHOOL HYGIENE The aim of this course is to equip the student with the knowledge of school and child hygiene necessary for a teacher. The following topics are included: normal growth and its standards; the ill effects of malnutrition, bad air, lack of exercise, excessive exercise, lack of proper rest, defective vision, defective hearing, adenoids, diseased tonsils; remedies for various defects and the best methods of treating them from the school standpoint; hygiene of program making; school sanitation including school furniture, ventilation, heating, lighting, water supply, toilets, etc.; regulations of state and local boards of health; the problem of nutrition as applied to school children with laboratory exercises in food values and food preparation. Observation of good hygienic school conditions and of good hygiene teaching is an important feature of this course.

Health 12—Health Habits

Group I, 2nd semester. 1 period, 1 hr. credit.

This course deals with the best methods of inculcating in the child proper habits of health, and includes methods of teaching cleanliness, value of bathing, care of the teeth, proper diet, tooth brush drills, proper clothing, protection of the eyes, importance of fresh air and sunlight, protection against contagious diseases, causes of fatigue, and the value of rest and recreation.

Health 1.2—Health Education

All groups, 1st and 2nd semesters. 3 periods, 1½ hrs. credit each semester.

Two hours each semester—Physical Education—floor work; apparatus; marching; rhythmic work, including clubs, wands, and folk dancing; games, athletics, including track and field events, tennis, hockey, hiking, skating, etc. Corrective work, including proper exercises for students unable to take regular gymnasium work.

One hour each semester—a graded course in health education, including physical exercises and games, arranged to meet the needs of children at various stages of development through the grades. Discussion of the different theories of play, and the management and equipment of playgrounds. First aid in emergencies is included.

Health 3, 4—Health Education

All groups, 3rd and 4th semesters. 3 periods, 1½ hrs. credit each semester.

Two hours each semester—Physical Education—floor work; apparatus; marching; rhythmic work, including clubs, wands and folk dancing; games; athletics including track and field events, tennis, hockey, hiking, skating, etc. Corrective work including proper exercises for students unable to take regular gymnasium work.

One hour each semester—the graded course in health education for children continued. Demonstration lessons and student teaching. Athletic activities for use on playground. Physical examination of school children.

Social Hygiene—a part of the time of this course is devoted to a discussion of problems of heredity, environment, sex hygiene and eugenics.
